

The genesis
of what is
now the
Marine
Meteorology
Division (MMD) of
the Naval Research
Laboratory (NRL)
began in 1950
with Project
AROWA

1950-Project AROWA

Applied Research: Operational Weather Analysis

1957-NWRF

Navy Weather Research Facility

1971-EPRF

Environmental Prediction Research Facility

Moved to Monterey

1975-NEPRF

Naval Environmental Prediction Research Facility

1989 NOARL-AD (Atmospheric Directorate)

Navy Oceanographic and Atmospheric Research
Laboratory

1992-NRL-MMD

Naval Research Laboratory-Marine Meteorology
Division

1969-FAMOS (Fleet
Applications of Meteorological
Observations from Satellites)

Merges with NWRF

Remains in Suitland, MD.
Moves to Monterey in 1972

Evolution of the Marine Meteorology Division (MMD)
